Erasmus+ Job Offers and Potentials in Green Jobs in Germany, Hungary, Poland and Romania Germany

One task in the project was to search job offers in the 4 consortium countries, finding the numbers of open jobs, the sectors and the relevant job portals. A ranking and % distribution of the jobs was performed. The search was performed between November 2016 – February 2017.

Germany:

- Search in 32 "Green" Job Portals
- 16.778 Job ads identified

Results: open Job ranking: positions and percentage. The red arrow shows where our potential course will give input to add "green" knowledge to the job descriptions.

- About 10% of duplicates noted
- Genuine ads: 15.100
- Equates to 2,29% of the annual total job offerings (660.825 as reported by the German Federal Statistics Office)
